## Career objective

To accept challenging tasks and work with team spirit. My aim is to make a successful career in your organization and work towards development of organization.

## Professional Experience

**Software Engineer, Adobe**

2023 – present

**Part of Adobe's omnichannel Customer Experience platform that is used to improve the customer's experience to have conversation with Adobe's support team using React Js , Java and Spring Boot.**

- Involve in design and development of application using front-end technologies.
- Work with platform/integration tracks to identify the usability of those components.
- Analyze business and requirement specifications to create high level designs and framework components as required using JIRA, Lucid chart and Confluence.
- Collaborate with architects, Tech Lead and other Software Engineering resources in designing and implementing integrated, enterprise level solutions.
- Re-factoring automation scripts and making them work according to new changes.
- Participating in a Daily Scrum/Stand-ups meeting.
- Participating in sprint planning, backlog grooming, retrospective and demo meetings.

**Software Engineer, Agile Cockpit**

2022 – 2023

**Part of a project which has JIRA tool like functionality.**

- Take initiatives to periodically review and recommend improvements to the templates as needs arise and to keep all technical documentation up to date.
- Work on CI/CD pipeline using GitLab, Maven, Jenkins and to aggregate the project output along with its dependencies, modules, site documentation, and other files into a single distributed archive.
- Web application (both consumer facing as well as internal application).
- Worked on improving and debugging the API functions using Postman.
- Strong communication, analytical and interpersonal skills working within Cross-functional teams.
- Involved in deploying the code in to GIT repository and maintain the version.

**Quality Specialist, Amazon**

2021 – 2022

**Improved the Last Mile delivery experience of customers.**

Hyderabad, India
